

## Suffolk County ASA Development Championship Report

- The updated entry packs have been e-mailed to all clubs, and have been posted to those clubs wishing to receive paper copies
- Changes have been made to the Disability Conditions and Entry Times to bring us fully in line with British Swimming guidelines. This is unlikely to have any significant impact on entries from these swimmers as those likely to compete already meet these requirements. In addition, we have allowed 'guest' swimmers to compete who may be waiting for their classification. I would like to thank Liz Christian and Jill Walker for their input into these.
- Bernie and Vicki have forwarded us all the information from 2007, which we are slowly working our way through - it will be a great help and reduce the workload.
- We do need to resolve the issue of the officials food as Jaceys are unable to help this year. We are in contact with other local options, and will let you know in due course the progress we have made.
- Help with the event is also well underway - Beccles have agreed to act as Competitors Stewards for the meet, and we have also had offers of help from regulars. We do need to contact John North to confirm his help with AOE.
- The medals have all been ordered.
- Following on from comments in Bernie and Vicki's Championship Report, we would be interested in the thoughts about DE Photos and a swim shop provision.
