

SUFFOLK COUNTY ASA

MASTERS REPORT – MARCH 08

Not much to report as the Masters season is getting a slow start.

The most notable thing is the Inter County Date is set for Sunday November 15th but the venue is to be decided yet although Newmarket is looking favourable.

At the recent East Region Masters Meeting it was decided that a development day for masters would be suitable in January. I have commented to the Regional Manager that I would like Suffolk to assist with this, which he was happy to accept.

I have also suggested we do a campaign in the local communities to see if there are any ex swimmers who have left to have babies etc but may find an interest in a return to the pool. Again I discussed this with the Regional Manager as maybe doing it on a regional level would have greater results. My thought is to maybe have a centre point in each county.

I have nearly completed the calendar of recommended events for Suffolk Masters to compete in which I will forward to the relevant club secretaries.
