

## **SUFFOLK COUNTY ASA TROPHY REPORT AGM 2008**

Congratulations to all the people responsible for returning the trophies that their Club won at the County Championships. It was the best year ever for the return of trophies in 2008. The fines from the previous two years obviously helped! I wished I had pushed it before!

One trophy was damaged and Dave Whelan had to come to my rescue to get it repaired in time for the Presentation, thanks Dave! If you know that your trophy is damaged if you let me know when it happens I can get it repaired before it becomes an emergency. The County are insured. You will not be charged unless it is deliberate and malicious.

Nothing else for now except to say please keep up the good returns record for this year. Trophies should be back with Club Representatives by 31<sup>st</sup> December and back to me by the first Executive Meeting in the New Year, usually January.

**Bobbie Wilson**
